INDEPENDENT AUDITORS' REPORT

Honorable Norman Ngiratecheboet Governor Airai State Government:

Report on the Financial Statements

We have audited the accompanying statements of receipts and disbursements of the Airai State Government (the State) for the years ended December 31, 2019 and 2018, and the related notes to the statements of receipts and disbursements.

Management's Responsibility for the Statements of Receipts and Disbursements

Management is responsible for the preparation and fair presentation of these statements of receipts and disbursements in accordance with the cash receipts and disbursements basis of accounting; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statements of receipts and disbursements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these statements of receipts and disbursements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statements of receipts and disbursements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statements of receipts and disbursements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statements of receipts and disbursements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statements of receipts and disbursements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statements of receipts and disbursements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Deloitte.

Opinion

In our opinion, the statements of receipts and disbursements referred to above present fairly, in all material respects, the receipts and disbursements of the Airai State Government for the years ended December 31, 2019 and 2018, on the basis of accounting as described in note 1.

Emphasis of Matter

As described in note 1, these statements were prepared on the basis of receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Our opinion is not modified with respect to this matter.

Other Matter

Other Information

Our audits were conducted for the purpose of forming an opinion on the statements of receipts and disbursements of the State. The Statement of Budget, Receipts and Disbursements (pages 5 through 10) and the Schedule of Earmarked Projects, Capital Improvement Projects, Other Grants and Miscellaneous (page 11) for the year ended December 31, 2019 are presented for the purpose of additional analysis and are not a required part of the statements of receipts and disbursements. The Statement of Budget, Receipts and Disbursements and the Schedule of Earmarked Projects, Capital Improvement Projects, Other Grants and Miscellaneous are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the statements of receipts and disbursements. Such information has been subjected to the auditing procedures applied in the audit of the statements of receipts and disbursements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statements of receipts and disbursements or to the statements of receipts and disbursements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Budget, Receipts and Disbursements and the Schedule of Earmarked Projects, Capital Improvement Projects, Other Grants and Miscellaneous are fairly stated, in all material respects, in relation to the statements of receipts and disbursements as a whole.

April 21, 2023
